Good afternoon [REDACTED]
[REDACTED]

I wish to register an objection to those plans shown on the website that effect the village Jeffreyston more directly those plans shown opposite our property on the Haverfordwest road through the village.

However we feel as I have mentioned in previous objections that the village lends itself to more sympathetic infill developments where the development will not impact on our outlook or effect our business The Haverfordwest road is already a busy road and is frequently hammered with tractors and large trailers for a large part of the year. I have been reliably informed that the school is full and would struggle to take a large intake of children especially as the school is not just serving the children of Jeffreyston either.

However on examination of the plan I see that a small site has also been identified for possible development that we believe to be a much better choice for development. This site is not going to cause upset or destroy view or out looks and I feel the village would be able to absorb the additional numbers with the minimum disruption.

I understand that this is a much smaller site but rural development should never considered potential sites without assessing the massive impact on those of us that have been living here for some time.

We are not a large village and every plan submitted has more and more of an impact on our lives and business. [REDACTED]
